# CARRYALL 700

## VERSATILITY & RELIABILITY

**Payload.** Total vehicle capacity of 680.3 kg (1500 lb).

**Best-in-class EFI powertrain:** The vehicle's 10.3 kW (14 hp) rated Subaru overhead cam engine with electronic fuel injection improves fuel efficiency as much as 50%. It also has a filter-less oil system, an optional limited slip differential for improved traction, and a side fuel tank. Beat that!

**Improved charging.** The industry's only standard on-board high-efficiency charger with cord retractor. This new system operates on voltages around the globe, and tolerates voltage swings that would shut down lesser chargers.

**More durable than steel.** Carryalls are built on Club Car's exclusive lightweight, rustproof, air-craft-grade aluminum frame that's designed to be stronger than steel. Unlike competitive steel frames, it resists corrosion and retains resale value.

**Fit-to-task utility.** A one-of-a-kind bed box with an integrated track-based attachment system, optional tool holders, bed dividers and cargo tie downs increases versatility and saves floor space. So you can do more with less.

**Improved ergonomics.** Cockpit style interiors with restyled hip restraints make the vehicles easier to enter and exit. And an ergonomic dash puts the key switch, shifter and gauges at the driver's fingertips.

**The best warranty in the industry.** The industries longest standard battery, powertrain and bumper to bumper warranty.
